

Università degli Studi di Pavia

Dottorato di Ricerca in Scienze della Terra e dell'Ambiente

## Computational mechanics for scientific problems

Organised by

**Matteo Alvaro**

Dipartimento di Scienze della Terra e dell'Ambiente

**Alessandro Reali**

Dipartimento di Ingegneria Civile e Architettura

**Giancarlo Sangalli**

Dipartimento di Matematica

**11-15 December 2017**

(24 hours – 6 CFU)

Mon	Tue	Wed	Thu	Fri
	11-13		11-13	
14-18	14-18	14-18	14-18	14-18

Aula Beltrami, Dipartimento di Matematica

The course aims at providing to PhD students in Geology, Mathematics, and Engineering a common basic background and the skills of computational mechanics tools to be applied, as a practical example, to relevant geological problems.

No registration fee is required.

The course will end with an examination and participants will be given a certificate of attendance.
